Ultra-Slim Smart 4K Ultra-HD LED TV

With Ambilight 2-sided

Ultra HD with you in mind: the Philips 7800 series 4K Ultra-HD TV. Packed with features, it's a feast for the senses combining stunning 4K resolution, Ambilight, 3D and Ultra-Slim dimensions to take your breath away.

Benefits

Light up your life. Love it. Live it.

- Ambilight changes the way you look at TV forever

A TV that's more than Smart — it's beautiful

- Frameless design: no bezel means more TV to love
- Finishing touches: a TV that looks as great as it performs
- Ultra Slim lines for a refined profile

A picture so real, you'll forget it's TV

- 4K Ultra HD: resolution like you've never seen it before

- Pixel Precise Ultra HD: discover vivid Picture Quality
- 600 Hz PMR Ultra HD for flawless moving images

Connect, communicate, record and share

- From apps to Cloud TV: more online entertainment than ever
- Wi-Fi Miracast™—mirror your smartphone screen to your TV
- Multiroom TV—share live TV and recordings between TVs
- Keyboard remote control makes texting easy

PHILIPS

Features

Ambilight 2-sided

You've created a home that's more than just a house, so why not choose a TV that is warm and inviting too? Philips unique Ambilight technology makes your screen much wider—and your viewing experience more immersive—by projecting an extra wide glow from two-sides of your TV screen onto the surrounding wall. Colour, vibrancy and excitement move beyond the screen and into your living room, bringing with it a more thrilling, intense and immersive viewing experience.

Frameless design

Sleek. Minimalist. Discreet. Our frameless bezel is beautifully crafted from high-quality glass and edged with an ultra-thin aluminium wrap; minimising the frame and maximising your viewing.

Authentic materials

Your home represents your style. Our designers chose subtle, sophisticated colours and finishes and combined them with authentic, quality materials like aluminium to create a TV design that blends seamlessly with your interior.

Ultra Slim profile

Sleek. Cutting edge. Refined. Precise. The Philips Ultra Slim silhouette. That something so slim can inspire so much interest shouldn't be surprising, given how much sophistication it will bring to your décor.

4K Ultra-HD Resolution

See TV like never before thanks to four times the resolution of a conventional Full HD TV. 3840 x 2160 pixels provide an image so refined, so lifelike, it's a window to a new world.

Pixel Precise Ultra HD

The beauty of 4K Ultra-HD TV is in savouring every detail. The picture-processing algorithms of our Pixel Precise Ultra-HD engine convert any input picture into UHD resolution on your screen. The result? Whether you watch a video online or native 4K Ultra-HD content, you'll experience exceptional sharpness, motion, clarity, colour and contrast from Philips.

600 Hz PMR Ultra

Nothing beats the adrenaline rush of gaming, fast-paced sporting events or action films on an Ultra-HD TV. That's why this Philips TV has 600 Hz Perfect Motion Rate Ultra, so you'll enjoy flawless moving images in Ultra-HD resolution. Because even though your pulse may jump, the image you're watching shouldn't.

Apps, Cloud TV* & Explorer

Imagine an ever-growing Smart app portfolio on your TV. From YouTube to music, Video On Demand and more, you can customise which apps you add to your dashboard. Want more? Explore Cloud TV. With hundreds of premium international channels, it's a great way to watch your favourite programmes and discover what's popular on the other side of the world. With Cloud Explorer, you can access Dropbox™ to view (and share) your favourite photos and videos on the big screen.

Wi-Fi Miracast™*

Mirror what you see on your smart device and share it with friends and family on your TV. From photos to videos, games and more, mirror anything from your smartphone and tablet to your big screen with a simple command.

Remote Control with Keyboard

Tuner/Reception/Transmission

Digital TV	DVB-T/T2/C/S/S2
------------	-----------------

* MyRemote app and related functionalities varies according to the TV model and country, as well as smart device model and OS. For more details please visit: www.philips.com/TV.
* For smart TV app, visit www.philips.com/TV to discover the services offered in your country.
* MPEG Support

- * Cloud TV offering depends on country availability and regulations
- * Compatibility depends on Wi-Fi Miracast certification and Android 4.2 or later. For more details please refer to your device documentation.
- * USB recording for digital channels only, recordings may be limited by broadcast copy protection (CI+). Country and channel restrictions may apply.
- * Philips TV camera (PTA317) is sold separately.
- * Parents should monitor their children during 3D viewing and ensure they do not experience any discomfort as mentioned above. Watching 3D is not recommended for children under 6 years of age as their visual system is not fully developed yet.
- * The TV supports DVB reception for 'Free to air' broadcast. Specific DVB operators may not be supported. An up to date list can be found in the FAQ section of the Philips support website. For some operators Conditional Access and subscription are required. Contact your operator for more information.
- * Energy consumption in kWh per year based on the power consumption of the television operating 4 hours per day for 365 days. The actual energy consumption will depend on how the television is used.
- * EPG and actual visibility (up to 8 days) is country- and operator-dependent.
- * (Philips) only compatible with specific Philips player device.
