

4K Ultra Slim TV powered by Android TV<sup>™</sup> with Ambilight 3-sided and Pixel Precise Ultra HD

- 139 cm (55")
- 4K Ultra HD LED TV Quad Core, 16GB & expandable DVB-T/T2

## 55PUT7101/56

# 4K Ultra Slim LED TV powered by Android TV

## with Ambilight 3-sided

Amazing TV starts with 4K Ultra HD picture quality and Ambilight. Enjoy the beautifully crafted Philips 7100 Series for an incredible entertainment experience with rich sound. And with Android TV, you can enjoy more right from your couch.

## **Benefits**

## Crafted Lightness

- · Ambilight changes the way you look at TV forever
- Finishing touches: a TV that looks as great as it performs
- Metallic open ribbon stands in a premium sandblasted finish

## Passionate about Picture Quality

- 4K Ultra HD is unlike any resolution you've ever seen before
- Experience better contrast, color & sharpness with HDR Plus
- The new integrated HEVC standard to enjoy high quality 4k
- · Enjoy a vivid picture with Pixel Precise Ultra HD

• Premium Color provides incredible color enhancement

Exhilarating. Limitless. Powered by Android

- · Google Play store and Philips app gallery: look beyond TV
- Unleash the power of Quad Core and integrated Android

## Thin TV - Big sound

· Hear every detail with DTS Premium Sound

## Features

#### Ambilight 3-sided

You've created a home that's more than just a house, so why not choose a TV that is warm and inviting too? Philips unique Ambilight technology makes your screen much wider—and your viewing experience more immersive—by emitting an extra wide glow from three-sides of your TV screen onto the surrounding wall. Color, vibrancy and excitement move beyond the screen and into your living room to bring you a viewing experience beyond the ordinary.

#### Authentic materials

Your home represents your style. Our designers chose subtle, sophisticated colors and quality finishes like polished chrome to create a TV design that blends seamlessly with your interior.

## **DTS Premium Sound**

Great TV speakers demand a powerful processing engine that preserves the purity of the original audio content. DTS Premium Suite is designed to deliver the experience consumers have come to expect from high end sound processing: immersive surround with deep, rich bass and crystal clear dialog that's delivered at maximum volume levels and without any fluctuations, clipping, or distortion.

#### **TV** Content

The Google Play store and Philips app gallery go beyond traditional TV programming to bring you a big online collection of movies, TV, music, apps and games. 16GB of expandable memory means there's plenty of room to store all your favorite content and to install more apps.

#### High Dynamic Range Plus

High Dynamic Range Plus is a new video standard. It redefines in-home entertainment through advances in contrast and color. Enjoy a sensory experience that captures the original richness and liveliness, yet accurately reflects the content creator's intent. The end result? Brighter highlights, greater contrast, a broader range of colors and detail like never before.

Ultra Resolution

#### HEVC support for 4k broadcast

The new integrated HEVC standard allow you to enjoy high picture quality 4k resolution broadcast.

#### Metallic open ribbon stands

Experience the beautiful design of these open ribbon stands. Their slim legs have been perfectly shaped for a clean, architectural look combined with just the right amount of curvature. And with a unique dark chrome finish, they'll keep you enthralled with their elegance.

#### Pixel Precise Ultra HD

The beauty of 4K Ultra HD TV is in savoring every detail. Philips Pixel Precise Ultra HD engine converts any input picture into stunning UHD resolution on your screen. Enjoy a smooth, yet sharp moving image and exceptional contrast. Discover deeper blacks, whiter whites, vivid colors and natural skin tones – every time, and from any source.

#### Premium Color

Philips Premium Color combines a wide color gamut panel enhanced by 85% with 4 Trillion colors processing. With so much more color resolution and brilliant saturated colors, you'll forget you're looking at a screen at all.

#### Quad Core + Android

Philips Quad Core processor meets the power of Android to deliver an exciting gaming experience. And with Android on your TV you'll navigate, launch apps and play videos in a way that is super fast, super intuitive, and super fun.
